Response to Election/Restriction

1. Applicant's election with traverse of Group II, claims 116-135, in Paper No. 6 is acknowledged. The traversal is on the ground(s) that the examiner failed to meet his burden of proof to make out a prime facie case that the claims of the two groups specified in Paper No. 2. This is not found persuasive because for example claims 105 disclosed a method of treating an artery with the step of enlarging the artery and then placing a vascular lining in the enlarged segment of the artery while claims 116 having the limitations of a plaque-treating instrument that remove the plaque from the artery, a hollowing lining and a lining carrier for inserting of the hollowing lining. The method of Group I can be practiced with another materially different product. Claims 105-115 are withdrawn from consideration.

The requirement is still deemed proper and is therefore made FINAL.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 116-135 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-20 of U. S. Patent No. 6,090,135. Although the conflicting claims are not identical, they are not patentably distinct from each other because both application and patent disclose a combination of a plaque-treating instrument, a tubular graft and a graft carrier.
